WHO WE ARE

A trusted partner in banking & security since 1995

Since its establishment in 1995 in Damascus, Syria, Nazzal Group has become a leading supplier of high-technology banking equipment in the region, and is rapidly developing its operations in Amman (Jordan), Iraq, Saudi Arabia and Lebanon.

1995
Established in Damascus, Syria

5
Markets: Syria, Jordan, Iraq, KSA & Lebanon

100+
Banks, exchange houses & enterprises served

10+
Global manufacturers represented

01 · MISSION

Total commitment

Our basic rules are built on total commitment to our customers and to our suppliers. Over the years we have focused on excellence and on building long-term relationships that set the standard for how we do business.

02 · EXPERTISE

Growth of expertise

Years of experience in security systems let us provide the best technical support, delivered by experienced, highly skilled engineers trained to handle any issue — no matter how complex.

03 · SERVICE

Quality & after-sales

Our reputation rests on quality and after-sales support, delivered by a professional team trained by our approved global manufacturers — and on keeping abreast of new technologies as markets evolve.

- ROTOTYPE — Chequebook personalisation

TOSHIBA · LEADING INNOVATION

High-speed banknote processing

Solutions for cash-handling businesses — central banks, commercial banks and cash-in-transit (CIT). Toshiba banknote processing machines deliver very high throughput with no loss of the accuracy that reliable banknote sorting demands.

TOSHIBA

FS-2000 High-Speed Banknote Processing System

Large-scale banknote processing for central banks and cash centres, combining fitness sorting, counting and strapping in one modular line.

- High throughput with sorting accuracy preserved
- Modular stacker and strapping units
- Designed for central bank & CIT operations

Central banks | Cash centres | CIT

TOSHIBA

IBS-1000 Currency Sorter

Compact, configurable currency sorter with a colour touch-panel, large-capacity feeder and flexible stacking for commercial banks and cash centres.

- 10.4" colour touch-screen operation
- Large-capacity feeder for continuous work
- 4-pocket stacker and dual reject pockets
- Optional online strapping with selectable width

PROSCAN · NAZZAL OEM

Fitness sorters for branches & tellers

Heavy-duty banknote sorters built on the C.A.R.T platform, with advanced detection, serial-number reading and multi-currency recognition.

BANKNOTE SORTER

PROSCAN

Proscan P2

Premium heavy-duty 1+1 pocket fitness sorter with advanced detection technology.

- Jam-free mechanism · dual full-colour CIS
- 1,200 notes/min · auto currency recognition
- Real-time serial number reading (OCR)

HEAVY-DUTY

PROSCAN

Proscan P3

Premium 3-pocket fitness sorter for tellers and branches handling bulk cash.

- One-touch open system · detachable 7" panel
- Multi/auto currency · multi-scan (cheque/voucher/TITO)
- Serial number OCR · online check authentication

NAZZAL OEM

Modular Premium 4+2 Pocket Fitness Sorter

Dual-pocket expandable module and flexible pocket-assignment system — maximised cash-handling productivity with easy configuration for diverse sorting and pocket accessibility.

- Expandable pocket modules
- Flexible pocket assignment
- Built for high-volume branches & cash centres

CASH-ROOM EQUIPMENT

Sort, band, count & issue in-house

PROSCAN

P6 Strapper — Automatic Sorting & Banding

A complete automatic note sorting and banding system made of three modules:

- **Main module** — note sorting machine
- **Centring module** — note alignment
- **Strapping module** — note banding

GERMANY · TAIWAN

Banding & Strapping Machines

High-quality banding machines from a leading German manufacturer, and automatic banknote strapping and banding machines with tapes from an award-winning Taiwanese maker.

VACUUM COUNTING

Vacuum AIR Compact Banknote Counter

Compact, high-performance vacuum counter: counts bundles without removing bands, counts stapled or clipped documents, batch adding and verify mode with acoustic signal.

ROTOTYPE · CHEQUEBOOK DISPENSER

CBD 2000 Chequebook Personalisation

One of the most widely used chequebook personalisation machines in the world — enabling banks to issue chequebooks instantly, in-house.

- Hammer-head impact MICR printing (E13B / CMC7)
- 3 HP inkjet printheads, 300 dpi graphics & QR codes up to 1"
- Feeds covers, order forms & cheques from two stations
- MICR codeline per cheque: number, bank/branch, account
- Stapling & binding of the complete chequebook
- Easy core-banking integration

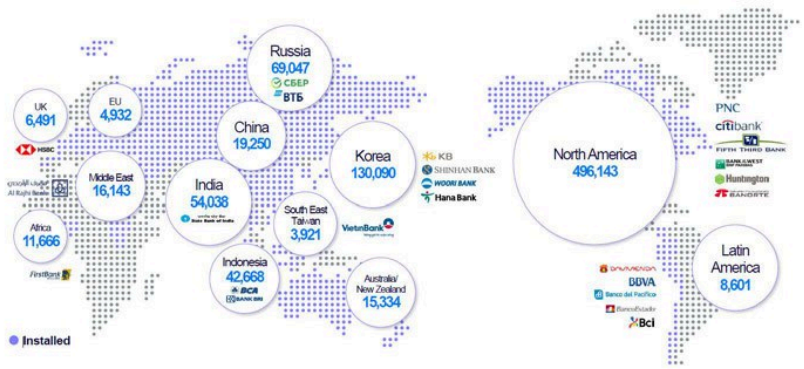

CHUBBCASH

Next-generation ATMs

Chubbcash machines are engineered to give consumers a functional, user-friendly and secure experience. From bill payments and fund transfers to self-audit and video assistance, they belong at the centre of any digital transformation strategy.

GLOBAL FOOTPRINT

CASH DISPENSERS · DISPENSER & DEPOSITOR

Cash Dispenser

Lobby & through-the-wall cash dispensing.

Island ATM

Full-function, free-standing island unit.

Walk-Up ATM

Full-function through-the-wall terminal.

Drive-Up ATM

Full-function terminal for drive-through lanes.

CHUBBCASH · CASH RECYCLERS

Cash recyclers for every location

Recyclers accept, validate and re-dispense customer deposits — reducing cash replenishment and CIT costs while keeping full functionality.

Small Footprint Recycler

Full-function in minimal space.

Walk-Up Recycler

Full-function through-the-wall.

Drive-Up Recycler

Full-function for drive lanes.

Island Recycler

Full-function free-standing.

BRANCH TRANSFORMATION SOLUTIONS

Modernise the branch, front to back office

BTS Front Office

Assisted teller recycling at the counter.

BTS Back Office

Secure back-office cash automation.

Vault Teller

High-capacity vault cash solution.

Digital Desk™

Video-assisted digital service desk.

CHUBBCASH STM

The branch counter, as self-service

The Chubbcash Smart Teller Machine integrates multiple counter services into customer self-service — increasing counter efficiency, optimising the user experience and cutting operational costs.

Multi-functional design

Integrates key core modules such as receipt printing, cheque issuing and laser printers. It handles more than 90% of non-cash banking business by itself — bill acceptance, receipt printing, account opening, contract signing and more.

Flexible deployment

Easy to deploy in the branch lobby or a 24-hour service zone — an effective way to expand banking service channels.

Account opening | Cheque issuing | Bill acceptance | Contract signing | 24h zone

TELLER CASH RECYCLERS

Compact Cash Recycler

Space-saving teller recycling for smaller branches.

High-Capacity Cash Recycler

Large note capacity for busy branches and cash rooms.

Cash-in Service Recycler

Cash-in service compatible recycling at the counter.

HÄNEL · OPTIMAL FILING SYSTEMS

Automated storage that comes to you

Since the 1950s the name Hänel has stood for innovative solutions in automated records and materials handling. The requested item is brought automatically to an ergonomic retrieval height at the touch of a button — protected from dirt, damage and unauthorised access.

HÄNEL

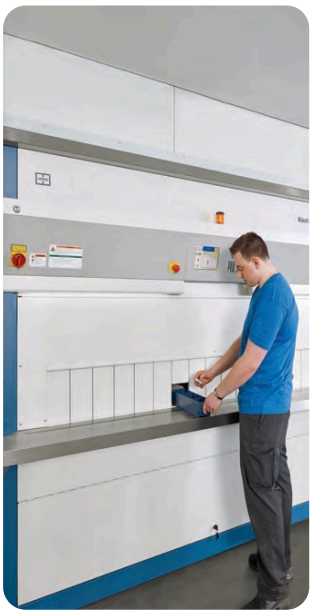

Hänel Rotomat® for Office & Administration

- Sculpted work counter, 300 mm overall depth
- Lockable sliding doors · uniform handles
- Smooth-action drawers on telescopic runners
- Front maintenance access
- Lighting trim & Rotomat logo for a modern look
- 5 modern colours · custom finish on request

Banking records · Archives · Valuables

CHUBBSAFES · TRUSTED THE WORLD OVER

Certified safes, vaults & fire protection

For almost 200 years Chubbsafes has supplied certified safes, vaults and doors for cash, valuables, data and documents — trusted by everyone from small businesses to the largest financial institutions. A member of the Gunnebo security group.

ECB•S · EN 1143-1

CHUBBSAFES

Europa Grades 3 & 5

- High-security cash safe for office environments
- Passive & active relockers in the boltwork
- Key lock + keyless combination; electronic & time-delay options
- Custom deposits, shelves & lockable drawers

UL 72 · CLASS 350

CHUBBSAFES

Ultra Fire File 31

- UL-certified fire protection for 1 or 2 hours
- Steel dividing plate between drawers
- High-security locks as standard
- 2, 3 or 4 drawers · 136 to 272 litres

CHUBBSAFES

Vault Doors

In use in thousands of bank branches and many central banks. F42 nylon-fibre barrier resists high-speed drilling, oxy-acetylene cutting and jack attack. 90, 115 or 150 mm barrier; emergency door & day grille available.

LIMITED EDITION

CHUBBSAFES

Chubbsafes™ 1835

A collector's run of only 190 individually numbered safes. Burglary and fire resistance, electronic lock, available in 4 colours — never to be reproduced.

FICHET-BAUCHE · PREMIUM SECURE STORAGE

Four centuries of security heritage

A world leader in secure storage and a member of the ECB•S certification body, Fichet-Bauche protects valuables, documents and data media from fire and burglary with safes, cabinets, vaults and locks.

PREMIUM SAFE RANGE

InviKtus — Triple-Certified Safes

- Burglary EN 1143-1 A2p · Fire NT Fire 017-60 Paper · Explosives EX A2p
- Four grades (III–VI), six sizes each: 140 to 1,120 litres
- Certified MxB, Moneo & optional GSL 1000 electronic locks
- Four lateral bolts, bottom bolt & anchoring lateral bar
- 10–25% lighter, larger volume, 170 mm walls

Banking · Retail · A2p certified

INDEPENDENTLY TESTED

Burglary, explosive & fire tests

Certified safes and vaults undergo rigorous testing by independent institutes — disc cutters, electro-hammers, thermal lances, explosives and fire endurance.

GUNNEBO · TECNOSICUREZZA · SARGENT & GREENLEAF

Locking solutions for safes, vaults & ATMs

GUNNEBO

Gunnebo Encry™

Certified electronic locks for safes, strong rooms and vault doors, with a secure One-Time-Code (OTC) algorithm and encrypted communication — for banking, CIT and high-risk sites.

BLUETOOTH®

TECNOSICUREZZA · GUNNEBO

AmpliSec™

Cloud-connected, Bluetooth®-enabled high-security locks on a Class B SwingBolt unit, with real-time audit logs, dynamic access rights and a standard footprint.

TECNOSICUREZZA

Electromechanical Locks

Electronic locks and security systems for safes, vaults and ATMs since 1983 — ISO 9001 certified and approved by VdS and UL.

sargent & greenleaf

Sargent & Greenleaf

For over 150 years, American-owned S&G has provided high-quality mechanical and electronic locks for safes, vaults and highly sensitive SCIF environments — in government, finance, business and homes around the world.

GUNNEBO · FOR A SAFER WORLD

Controlled access for people & places

Efficient, innovative security for customers around the globe across entrance control, bank security & cash handling, secure storage and global services.

Security Revolving Doors

Speed Gates

Entrance & Retail Gates

Full-Height Turnstiles

Accessible Swing Gates

Tripod & Access Control

Security Airlocks

Interlocking entrances for banks, data centres and high-security sites.

Airport Security

Boarding & border-control gates for passenger flow.

GUNNEBO · CASH MANAGEMENT

Closed cash management, end to end

Cash deposit, cash recycling, closed cash management and cash-management software — for retail, banking and CIT.

SafeDeposit D1k

SafeDeposit D4

SafeDeposit D5

SafePoint

SafeRecycling R6

SafeRecycling RS8

SafePay Collect

SafeBag & Coin Roll

PERIMETER SECURITY

Outdoor & indoor perimeter protection

Gates, fences and alarm systems; road-safety products; machine security and indoor perimeter protection for industry, warehouses, public spaces and homes.

INTEGRATED SECURITY

One integrated security platform

- Burglar & fire alarms, alarm monitoring centres
- CCTV surveillance
- Entrance & access control systems
- Fire-extinguishing systems
- Bullet-resistant glass walling & partitioning

INTEGRATED BANKING INFORMATION SYSTEMS

Software that runs the modern bank

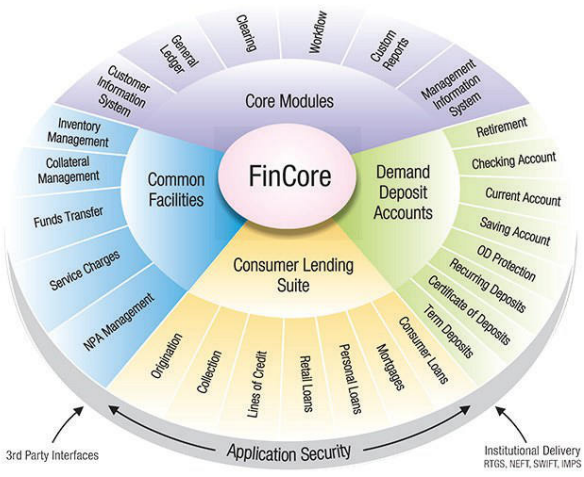

We work with leading experts in integrated banking systems, delivering proven platforms built on current technologies by companies with more than twenty years in banking automation.

01
Core Banking System

02
Global Switch — ATM, POS, Kiosk, e/m-Commerce

03

04
Electronic Cheque Clearing (ECCS)

Platform & infrastructure

- Object-oriented, N-tier architecture
- Multi-currency settlement (SYP, EUR, USD, AED...)
- Multilingual, easy interfaces
- EMV & PCI compliant · modular

Security & fraud

- File & data encryption
- Network & transaction security
- Triple-DES compliant
- Cryptographic HSM interface

Switching

- Secure for issuers & acquirers
- HOST, VISA & Mastercard connections
- Manage & supervise all interfaces
- EMV certified

BML ISTISHARAT · PARTNER

ICBS — Universal Core Banking

Founded in Beirut in 1972, BML Istisharat is a recognised global financial-software vendor. ICBS (Integrated Computerized Banking System) is a web-based, multi-tier, real-time 24×7 universal core banking solution covering retail, corporate, investment and treasury operations — with a dedicated Islamic edition.

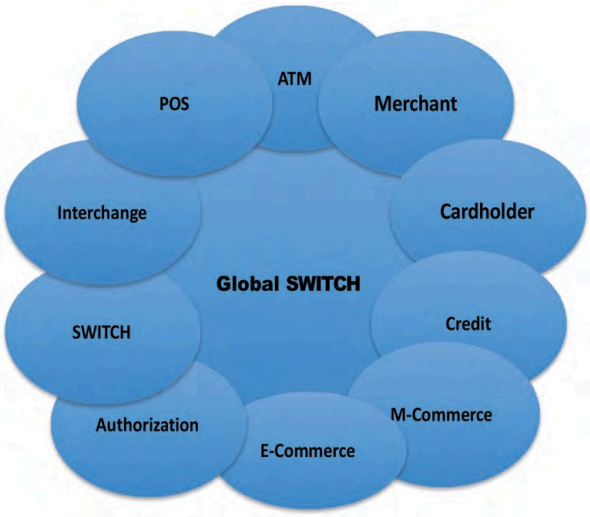

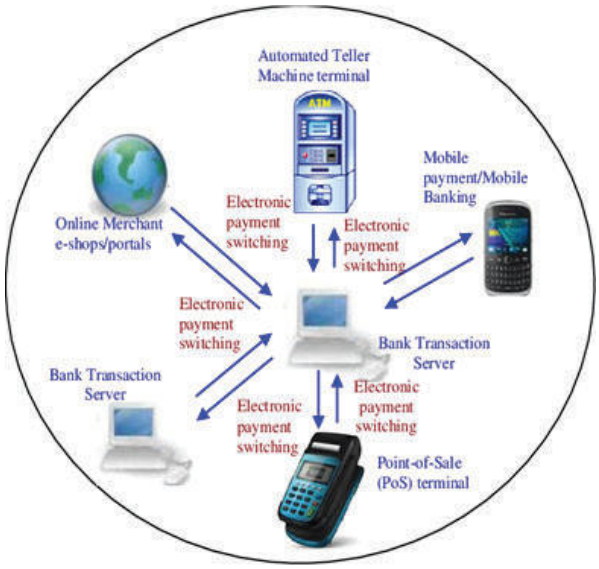

250+
Historical clients across 35 countries

3000+
Bank branches across 4 continents

52+
Years of operations, since 1972

24/7
Support · 100% successful implementations

ICBS Conventional

Front & back-office for banks and financial institutions, aligned with IAS/IFRS and local regulation.

Islamic ICBS

Sharia-compliant core banking aligned with AAOIFI and IFRS standards.

LIRIS · CIRIS · IMAD

Life & general insurance (incl. Takaful) and enterprise resource planning.

ENERTEC · ALTERNATIVE POWER SOLUTIONS

Energy storage for uninterrupted operations

Redefining electric power generation, storage and usage with global partners — efficient, sustainable and affordable solutions for branches, hotels, industry and micro-grids.

48V / 100A

Lithium Iron Phosphate (LFP)

- 10+ years of lithium battery R&D
- Multi-protection self-developed BMS
- 6,000-cycle life · compact, modular

60 KW PCS · 113 KWH

Outdoor All-in-One ESS

- For micro-grids, islands & hotels
- High-protection outdoor cabinet
- Pre-engineered, fast installation

60 KW PCS · 113 KWH

Indoor All-in-One ESS

- PV, battery, grid & load interfaces
- Seamless on/off-grid switching
- 100% unbalanced load support

6 · 8 · 12 · 16 KW SINGLE-PHASE · 12 KW THREE-PHASE

Industrial Hybrid Inverters

Hybrid inverters convert PV power to usable AC and work with batteries to store excess energy — essential where grids are weak, intermittent or absent.

- Grid-interactive connection control
- Dispatches power at peak demand
- Three-level BMS architecture

100+ CUSTOMERS · SYRIA & JORDAN

Trusted by banks, exchange houses & enterprises

Central and commercial banks, exchange companies, international organisations, hotels, retailers and industry rely on Nazzal Group for equipment, installation and after-sales support.

NAZZAL GROUP

Let's build your next secure solution together.

From a single sorter to a complete cash centre, vault or core-banking roll-out — our certified team handles supply, installation, training and after-sales support.
